

The City of San Diego's Fire-Rescue Department is committed to replacing and rehabilitating Fire-Rescue facilities in order to serve 1.3 million people in a 331 square mile area. The Capital Improvements Program plays a vital role in providing the much needed infrastructure for fire and lifeguard station facilities, while addressing the ongoing capital needs of the existing facilities. These facilities and the associated infrastructure are an important component in providing emergency responses throughout the City. The Department has 47 fire stations, a fire communications center, an air rescue facility, a training facility, 9 lifequard stations, a boat dock, and 48 seasonal lifequard towers. These facilities are designed and maintained for the use of our firefighters and lifeguards who in turn benefit the public by responding to emergencies. Fire-Rescue CIPs include aesthetics to ensure that older stations' appearance are maintained and new stations have good quality design that enhances the overall urban design of the community, and extends the life of the facility for long term cost savings. The Department continually seeks funding for capital improvements to preserve and extend the life-cycle of the 24/7 facilities, including roof and HVAC replacements, driveway repairs and other necessary facility maintenance projects, that affect health and safety. Funding for the department's projects come from a variety of sources such as development impact fees, facilities benefit assessments, developer reimbursement agreements, deferred capital project bond financing, grants and from the General Fund.

2012 CIP Accomplishments

In Fiscal Year 2012, the Fire-Rescue Department completed many capital improvements that included:

- Fire Station 1 was remodeled to accommodate fire, medics, hazmat, and bomb squad crews. The three apparatus doors were not functioning adequately to allow fire apparatus to enter and exit the fire station.
- Signage and landmark identification were provided for Fire Station 4's (Petco Park National Registry of Historic Places) - Citizens and visitors to San Diego can now enjoy and appreciate a part of San Diego's history with this restoration.
- Fire Station 25 (Bay Park) & 36 (Clairemont) were re-plumbed in order to accommodate adequate living environment for the fire crews. The re-plumbing extends the life of the building, bringing it up to current code for health & safety.
- HVAC replacement and electrical systems upgrade at the Fire Communications Center (FCC) with the assistance of state and federal grants, was integral in providing adequate cooling temperatures so that the computer and electrical systems maintain levels of operability.
- Fire Station 33 (Rancho Bernardo) was fully remodeled for its interior and exterior upgrades to bring the facility up-to-date, providing current staff amenities while complementing the surrounding community.
- Construction of fuel containment pad for Air Ops facility at Montgomery Field was completed to comply with current regulations and avoid violation fines.
- Development & Environmental Permits for Design/Build of Children's Pool Lifeguard Station Project Construction were obtained. This project is expected to begin October 2012. The condemned station will make room for a new state-of-the-art facility which will provide water emergency response & public restrooms.
- Council approved a 5-year Implementation Plan for long term facilities planning. This plan
 identifies ways to implement the need to design and construct additional fire stations
 throughout the City, as identified in the CityGate Study.

- A remodel design for Fire Station 3 (Little Italy) was completed. It includes ADA access, kitchen remodel and partial expansion of the living quarters to accommodate the growing population of the community.
- Underground fuel tank mitigation for future fire station site at Skyline North was completed to make room for the future site of a fire station.
- Lifeguard Headquarters located at Quivira was not ADA compliant which posed challenges to public citizens visiting the facility. It is now equipped with ADA ramps, access and restrooms.
- The Intercom system at Pacific Beach Lifeguard Station's was replaced to provide for lifeguards' operational needs and public announcement (PA) system for public health and safety.

2013 CIP Goals

The San Diego Fire-Rescue Department is looking forward to capital improvement projects slated for construction and those that will begin design:

- Project design of Fire Station 15 (Ocean Beach) will include the design and construction of the facility's ready room and dining room to meet functional and operational needs.
- Project design of Fire Station 8 (Mission Hills) will include the design and construction of the facility's living quarters which currently does not provide the full functionality of the fire station requirements.
- The Station Alerting project will provide for the replacement of the current Fire In-Station Alerting System at fire stations Citywide. The current alerting system technology is 21 years old and is currently relying on a back-up system. The design-build contract is anticipated to be awarded in Fiscal Year 2013.
- This project will provide for the demolishment of Fire Station 5 (Hillcrest) as well as design and construction of a new station.
- The reconstruction of Fire Station 17 (Mid-City) to accommodate up to 10 personnel, two fire apparatus and one paramedic unit
- Design of La Jolla Cove Lifeguard Station is anticipated to be completed. The facility was constructed in the 1950's with an observation tower added in 1980. In its current state, the facility is inadequate to accommodate staff or provide adequate water safety protection.
- La Jolla Shores Lifeguard Station was built in 1981 and will be replaced by a new facility.
- The redesign and reconstruction of Fire Station 22 (Pt. Loma) will be completed. The existing fire station was built in the early 1940's and is now too small to accommodate new fire engines.
- The reconstruction of Fire Station 38, located in Mira Mesa is anticipated to be completed.
- South Mission Beach Lifeguard Station will complete its design phase in FY13. The existing facility was constructed in 1974 and was intended to be a temporary lifeguard station.
 The structure will include an observation tower, first aid room, reception area, kitchen,
 locker room/restroom areas, and a separate facility for rescue vehicles and emergency
 equipment.

 ecetin@sandiego.gov

Description: This project provides for a new lifeguard station and family restroom at the Children's Pool in La Jolla. This is one of ten lifeguard projects included in the Fire-Rescue Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing Lifeguard Tower structure is no longer safe and has been abandoned. It does not meet the current or future needs of Lifeguard Services. The existing facility does not provide adequate safety to the employees, and can no longer keep up with the growing community of La Jolla and the larger number of visitors every year. The scope of this project is also to remodel the existing public restrooms facilities.

Operating Budget Impact: Personnel expenses are expected to increase by approximately \$161,000 during construction only. Maintenance costs for the new facility are expected to increase by approximately \$5,000 annually due to the increased square footage of the new facility.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

Schedule: Conceptual design is completed and approved. Building contract documents are currently in progress. A design-build contract is scheduled to be issued in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2015.

Summary of Project Changes: No significant change to this project for Fiscal Year 2013.

Improv Type: Replacement - Rehab agarcia@sandiego.gov

Description: This project provides for the replacement and/or rehabilitation of major structural and construction components in older fire facilities throughout the City. Included are electrical service upgrades, heating, ventilating and air-conditioning (HVAC), roofs, dormitory remodels, kitchen remodels, driveway and parking paving, exterior finishes and miscellaneous renovations. This is one of 12 projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: The San Diego Fire-Rescue Department currently maintains 50 fire facilities. Over half of these facilities have been in service for more than 25 years. Many of the major components have exceeded their expected service life and must be replaced. The needs of modern technology and a diversified workforce also require changes in fire facility configuration, HVAC systems distribution and energy capacity.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Schedule: Projects will be scheduled on a priority basis.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2013.

Duration:	2009 - 2017		619-533-4640
Improv Type:	Replacement		ecetin@sandiego.gov

Description: This project provides for the design and construction of modifications to rehabilitate Fire Station **Operating Budget Impact:** None. 1 which include different floor layouts, new electrical plans, ventilation and exhaust extraction system, new roll up doors, modified asbestos abatement plans to include only portions to be disturbed as part of other improvements, modified mechanical/ventilation system designed for the new configuration, kitchen area remodel and a new accessible restroom. On March 27, 2007, the City Council approved (R-302472 and 302473) a cooperation agreement with the Redevelopment Agency for funding improvements and authorizing the expenditure of funds needed to rehabilitate Fire Station 1 in an amount not to exceed \$1.5 million. A more extensive rehabilitation will be required if the station is not replaced.

Justification: This 29-year-old fire station is in need of repair and renovation in order to maintain a safe and livable facility. Many of the major components have exceeded their expected service life. The needs of modern technology and a diversified workforce also require changes in fire facility configuration.

Relationship to General and Community Plans: This project is consistent with the Centre City Community Plan and is in conformance with the City's General Plan.

Schedule: This project was redesigned and construction started in Fiscal Year 2010. The remodeling (phase 1) is complete. Phase 2 consists of reconstruction of the portion of the station that was not remodeled. Schedule for phase 2 will be estabilished when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2013.

Fire Station No. 05 - Hillcrest / S00788

New

Bldg - Pub Safety - Fire Fac / Struct

ecetin@sandiego.gov

Council District:	3	Priority Score:	80
Community Plan:	Uptown	Priority Category:	Medium
Project Status:	Released	Contact Information:	Cetin, Elif
Duration:	2009 - 2015		619-533-4640

Description: This project provides for an approximate 10,500 square foot fire station located at 3902 9th Ave- **Operating Budget Impact:** Once built, the operation of the Hillcrest Fire Station will require additional nue. The existing fire station will be demolished and replaced by a new, modern fire station. This station will house a crew of eight and one Battalion Chief. It will accommodate one engine, one aerial truck, and one Battalion Chief vehicle. This is one of 12 projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: The current station is 48 years old. The water and sewer service to the existing station is deteriorating and requires immediate repairs. The station is too small to accommodate a new style fire engine and the larger type of aerial ladder truck. The current station is inadequate to serve future population growth.

positions estimated at \$1,945,937 per year. The square footage increase of this fire station will also result in increased maintenance costs estimated at \$5,000 annualy. The cost of the project includes the purchase of a new Fire Engine valued at \$800,000.

Relationship to General and Community Plans: This project is consistent with the Uptown Community Plan and is in conformance with the City's General Plan.

Schedule: Design began in Fiscal Year 2011 and was scheduled to be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2015 when funding is identified

Summary of Project Changes: This project is anticipated to be allocated \$50,000 in Deferred Capital Bond financing from a Fiscal Year 2012 Council action which is currently routing for approval.

ecetin@sandiego.gov

in the Mid-City area. The station will accommodate up to ten personnel, two fire apparatus' and one paramedic unit. This is one of 12 projects included in the Fire Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: Fire Station 17 is one of the busiest engine companies in the United States and is currently in a state of deterioration. Reconstruction of Fire Station 17 will allow for assignment of one additional fire crew to divide emergency response between two units.

Description: This project provides for reconstructing the 50-year-old fire station at 4206 Chamoune Avenue **Operating Budget Impact:** The square footage increase of this fire station will result in increased maintenance cost of \$5,000. The cost of one additional fire engine is included in the project cost estimate. Also, the cost of one crew estimated at \$1,879,636 annually will need to be included as an operating impact.

> Relationship to General and Community Plans: This project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

> Schedule: The project is scheduled to complete design in Fiscal Year 2013. Construction will be scheduled when funding is identified.

> Summary of Project Changes: This project is anticipated to be allocated \$50,000 in Deferred Capital Bond financing in Fiscal Year 2013. Funding for the construction of this project is contingent upon future bond financing. The project cost and schedule will be revised when funding is identified for construction.

Council District:2Priority Score:81Community Plan:PeninsulaPriority Category:HighProject Status:ReleasedContact Information:Cetin, ElifDuration:2009 - 2015619-533-4640

Description: This project provides for the demolition of existing and reconstruction of a new station located at 1055 Catalina Boulevard in Point Loma. This is one of 12 projects included in the Fire Rescue Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054. **Justification:** The existing fire station was built in the early 1940's and is now too small to accommodate new fire engines. Many of the major components have exceeded their expected service life. The needs of modern technology and a diversified workforce also require changes in fire facility configuration.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

Schedule: The project design is scheduled to be completed in Fiscal Year 2013. Construction will be scheduled upon allocation of funding.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2013.

Rancho Bernardo and adjacent community areas. This project brought a major restructuring of an existing aging facility and was successfully completed during Fiscal Year 2010.

Justification: The existing facility was old and inadequate to accommodate staff and equipment and to serve the community efficiently. This project helps to address the General Plan recommendation according to which: to treat medical patients and control small fires, the first-due unit should arrive within 7.5 minutes, 90 percent of the time from the receipt of the 911 call in fire dispatch.

Description: This station is located at 16966 Bernardo Center Drive at Rancho Bernardo Road. It serves the Operating Budget Impact: Project enhancements will result in increased maintenance cost estimated at \$5,000 annually. Funds have been identified within the existing budget

> Relationship to General and Community Plans: This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's General Plan.

> Schedule: Design was initiated and completed during Fiscal Year 2009. Fire Station enhancements were completed during Fiscal Year 2010. This project will remain open through Fiscal Year 2012 to fulfill potential warranty obligations.

Summary of Project Changes: This project is complete and will be closed by the end of the fiscal year.

Priority Score: 92 **Priority Category:** High Contact Information: Cetin. Elif

619-533-4640

ecetin@sandiego.gov

Description: This project provides for an updated fire station in Mission Valley. The station will accommodate up to 17 personnel, two engines, one aerial truck, two hazardous material apparatus, one paramedic ambulance, and one Battalion Chief vehicle. This is one of 12 projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: A fire station is needed to serve the Mission Valley community. This project is consistent with City Council policy to meet response time guidelines.

Operating Budget Impact: Staffing and maintenance costs for the temporary facility are reflected in the Summary of Project Changes: No significant change to this project for Fiscal Year 2013. Fire-Rescue Department's Fiscal Year 2012 Adopted Budget. The operation of the permanent facility will require additional positions equivalent to \$1,864,889 per year if the facility is fully staffed in Fiscal Year 2014. Non-personnel costs to operate a new station are approximately \$300,000. These funds will need to be added permanently to the Fire-Rescue budget after the project is complete.

Relationship to General and Community Plans: This project is in conformance with the City's General Plan; however, the Mission Valley Community Plan does not currently provide for this project. An amendment to the Community Plan may be required prior to implementation of this project.

Schedule: Design is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin when the remainder of funding is identified. A temporary facility for one engine company is located in the QUAL-COMM Stadium parking lot. The construction schedule for the permanent facility will be revised when additional funding is identified.

La Jolla Cove Lifeguard Station / S00792

Bldg - Pub Safety - Lifeguard Stations

Council District:	1	Priority Score:	93
Community Plan:	La Jolla	Priority Category:	High
Project Status:	Released	Contact Information:	Cetin, Elif
Duration:	2009 - 2014		619-533-4640
Improv Type:	Replacement		ecetin@sandiego.gov

Description: This project provides for the La Jolla Cove Lifeguard Station, located at 1100 Coast Boulevard, Operating Budget Impact: Personnel expenses are not expected to increase; however, non-personnel which will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, and locker room/restroom areas for males and females. This project will also provide for an accessible ramp for the mid-landing. This is one of ten lifeguard projects included in the Fire Rescue Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing facility consists of a station constructed in the 1950s and an observation tower added in 1980. It is inadequate to accommodate staff or provide adequate water safety protection.

expenses for utilities and on-going maintenance are estimated to increase by approximately \$5,000 per year due to an expanded facility area.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

Schedule: Design is currently in progress and scheduled to be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and anticipated to be completed in Fiscal Year 2015, contingent upon allocation of funding.

Summary of Project Changes: Deferred Capital Bond financing in the amount of \$\$1,320,279 will be allocated to this project for Fiscal Year 2013.

Project Status:	Released	Contact Information:	Cetin, Elif
Duration:	2009 - 2013		619-533-4640
Improv Type:	Replacement		ecetin@sandiego.gov

Description: This project provides for the La Jolla Shores Lifeguard Station located at 8100 Camino del Oro, which will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas for males and females, and a separate facility for rescue vehicles and emergency equipment. This is one of ten lifeguard projects included in the Fire-Rescue and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing facility was built in 1981 and is inadequate to accommodate current and future staff and to allow for adequate water safety protection to the public.

Description: This project provides for the La Jolla Shores Lifeguard Station located at 8100 Camino del Oro, which will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas for males and females, and a separate facility to increased footage in the new facility.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

Schedule: Final design was completed during Fiscal Year 2010. Construction began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2013

agarcia@sandiego.gov

Description: This project provides for construction of the Lifeguard Headquarters located at 2581 Quivira Operating Budget Impact: Personnel expenses are not expected to increase; however, non-personnel Court. The replacement facility will house lifeguards 24-hour-year-round, mechanics, administrative and training staff and will provide an operation yard and storage for the rescue fleet. Construction of this lifeguard facility will occur in two phases. Phase I to replace the emergency dock has been completed. This is one of ten lifeguard projects included in the Fire Rescue Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing facility was constructed in 1956 and is inadequate to accommodate staff and equipment. Many of the major components have exceeded their expected service life. The needs of modern technology and a diversified workforce also require changes in fire facility configuration.

expenses for utilities and on-going maintenance are estimated to increase by approximately \$8,000.

Relationship to General and Community Plans: This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

Schedule: Design and construction of the Lifeguard Headquarters facility have been deferred due to lack of

Summary of Project Changes: This project is complete and will be closed by the end of Fiscal Year 2013.

North Pacific Beach Lifeguard Station / S10119

Bldg - Pub Safety - Lifeguard Stations Council District: 2 **Priority Score:**

Community Plan: Pacific Beach **Priority Category:** High Project Status: Released Contact Information: Cetin. Elif Duration: 2011 - 2016 619-533-4640 Improv Type: Replacement ecetin@sandiego.gov

Description: This project provides for the North Pacific Beach Lifeguard Station located at the foot of Chalcedony Street, which will be a year-round facility replacing the current seasonal station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas for males and females, and a garage for rescue vehicles and emergency equipment.

Justification: North Pacific Beach has become a highly frequented beach over the years and new facilities will benefit both the public and the employees. Lifeguards are currently operating from a seasonal tower structure supported by a container-type of facility where medical aids and other daily activities like food preparation take place. This can create health issues for both the public and the emploees.

Operating Budget Impact: Added maintenance costs for this facility are estimated at \$8,000 per year.

83

Relationship to General and Community Plans: This project is consistent with the Pacific Beach Community Plan and is in confrmance with the City's General Plan

Schedule: Designwas scheduled to begin in Fiscal Year 2012. Construction will be scheduled upon identification of funding.

Summary of Project Changes: City Council Resolution R-307095, dated November 17, 2011, authorized the reallocation of bond financing and resulted in the decrease of \$400,000 from this project. Funding will be reallocated when construction is initiated.

Project Status:	Released	Contact Information:	Cetin, Elif
Duration:	2011 - 2015		619-533-4640
Improv Type:	Replacement		ecetin@sandiego.gov

Description: This project provides for the Ocean Beach Station located at 1950 Abbott Street. This will be a Operating Budget Impact: None year-round facility replacing the current station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas for males and females, and a garage for rescue vehicles and emergency equipment.

Justification: The existing facility consists of a station constructed in 1980. Since that time, the beach has become a very popular area for swimming and surfing. The existing station is inadequate to accommodate staff and equipment. This project will result in a more effective deployment of Lifeguard personnel and equipment therefore improving the safety of the public and the community

Relationship to General and Community Plans: This project is consistent with the Ocean Beach Community Plan and is in conformance with the City's General Plan

Schedule: Project is temporarily on hold. A revised design and construction schedule will be determined once funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2013.

tions Citywide. The current alerting system technology is 21 years old and is no longer in service forcing the department to rely upon a back-up system.

Justification: The current in-station alerting system is 21 years old and no longer in service. This project will in Fiscal Year 2014. help address revisions in the General Plan according to which: to treat medical patients and control small fires, the first-due unit should arrive within 7.5 minutes, 90 percent of the time from the receipt of the 911 call in fire

Operating Budget Impact: None.

Description: This project will provide for the replacement of the Fire In-Station Alerting System at fire staplans and is in conformance with the City's General Plan.

Schedule: Replacement of the system Citywide is estimated to begin in Fiscal Year 2012 and to be completed

Summary of Project Changes: As a result of the Fiscal Year 2012 Mid-year Appropriation Adjustments, this project will be fully funded by CIP Contributions from General Fund. Total project cost increased by \$2.7 million per City Resolution R-307312 approved on March 14, 2012.

Fire-Rescue Unfunded Needs List

Project	Project Total	Unidentified Funding	Percent Unfunded	Description
Fire Station No. 01 - Downtown / S00786	6,317,116	5,800,000	91.8%	This project provides for asbestos removal, dormitory remodel and a new exhaust extraction system at the fire station located at 1222 First Avenue in Downtown. The total estimated project cost of \$6.3 million includes an unfunded amount of \$5.8 million that would be used for reconstruction. Modified/Reduced remodel scope has been completed for Phase 1 and unidentified funds still needed for a full phase 2 remodel unless a new fire station is constructed as part of new Civic Center.
Fire Station No. 05 - Hillcrest / S00788	9,020,000	8,128,077	90.1%	This project provides for an approximate 10,500 square foot fire station located at 3902 9th Avenue. The existing fire station will be demolished and replaced by a new, modern fire station. Construction funding for this project has not yet been identified.
Fire Station No. 17 - Mid-City / S00783	8,670,000	7,886,376	91.0%	This project provides for reconstructing the 50-year-old fire station at 4206 Chamoune Avenue in the Mid-City area. Construction funding for this project has not yet been identified.
Fire Station No. 22 - Point Loma / S00787	5,638,000	4,679,839	83.0%	This project provides for the reconstruction of Fire Station 22, located at 1055 Catalina Boulevard in Point Loma. Construction funding for this project has not been identified.
Fire Station No. 32 - Skyline North / S00687	9,153,325	8,162,149	89.2%	This project provides for a new station, in addition to the existing Fire Station 32 located at 484 Briarwood Road, to better serve the growing community of Skyline/Paradise Hills. Design and construction phases are currently unfunded.
Fire Station No. 45 - East Mission Valley / S00688	12,016,400	4,877,708	40.6%	This project provides for a new fire station in Mission Valley. The station will accommodate up to 17 personnel, two engines, one aerial truck, two hazardous material apparatus, one paramedic ambulance, and one Battalion Chief vehicle. Cost shown includes \$1.2M needed to purchase one Fire Truck.
Fire Station No. 54 - Paradise Hills / S00785	10,295,000	10,211,065	99.2%	This project provides for a new station in the Paradise Hills area to serve the Paradise Hills/Skyline area of San Diego. Design and construction phases are currently unfunded.
Lifeguard Station Headquarters / S00794	12,411,286	10,000,000	80.6%	This project provides for the replacement of the Lifeguard Headquarters and Boating Safety Unit Dock located at 2581 Quivira Court. Design and construction phases are currently unfunded.
North Pacific Beach Lifeguard Station / S10119	4,675,444	4,185,444	89.5%	This project provides for the North Pacific Beach Lifeguard Station located at the foot of Chalcedony Street, which will be a year-round facility replacing the current seasonal station. Construction phase is currently unfunded.
Ocean Beach Lifeguard Station / S10121	4,560,000	4,550,000	99.8%	This project provides for the Ocean Beach Station located at 1950 Abbott Street. Funding for design and construction of the facility is unidentified.
South Mission Beach Lifeguard Station / S00791	4,600,000	4,230,064	92.0%	This project provides for a new year-round South Mission Beach Station located at 700 North Jetty Road which replaces the current station. Construction phase is currently unfunded.
